## Accounting Policies

The principal accounting policies adopted in the preparation of these financial statements are set out below :

### **1.1 BASIS OF PREPARATION**

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practices (GRAP) issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

Accounting policies for material transactions, events or conditions not covered by the above GRAP Standards have been developed in accordance with paragraphs 7, 11 and 12 of GRAP 3. These accounting policies and the applicable disclosures have been based on the South African Statements of Generally Accepted Accounting Practices (SA GAAP) including any interpretations of such Statements issued by the Accounting Practices Board.

The Accounting Standards Board has set transitional provisions for individual standards of GRAP as set out in Directive 4 issued in March 2009. Details of the transitional provisions applicable to the municipality have been provided in the notes to the annual financial statements.

### **1.2 STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE**

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality. Application of all of the GRAP standards noted below will be effective from a date to be announced by the Minister of Finance. This date is not currently available.

- GRAP 18 Segment Reporting - issued March 2005
- GRAP 23 Revenue from Non-Exchange Transactions (Taxes and Transfers) - issued February 2008
- GRAP 24 Presentation of Budget Information in Financial Statements - issued November 2007
- GRAP 103 Heritage Assets - issued July 2008

The following standards, amendments to standards and interpretations have been issued but are not yet effective and have not been early adopted by the municipality:

- IAS 19 Employee Benefits - effective 1 January 2009
- IFRIC 17 Distribution of Non-cash Assets to Owners - effective 1 July 2009
- IAS 39 Financial Instruments: Recognition and Measurement - portions of standard effective 1 July 2009

Management has considered all of the above-mentioned GRAP standards issued but not yet effective and anticipates that the adoption of these standards will not have a significant impact on the financial position, financial performance or cash flows of the municipality.

A summary of the significant accounting policies, which have been consistently applied except where a transitional provision has been granted are disclosed below in notes 1.3 to 1.17.

### **1.3 PRESENTATION CURRENCY**

These annual financial statements are presented in South African Rands.

### **1.4 GOING CONCERN ASSUMPTION**

These annual financial statements have been prepared on a going concern basis.

## 1.5 PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment is stated at cost or fair value less accumulated depreciation. Heritage assets, which are culturally significant resources and which are shown at cost, are not depreciated owing to the uncertainty regarding their estimated useful lives. Similarly, land is not depreciated as it is deemed to have an indefinite life.

The cost of an item of property, plant and equipment comprises purchase price, import duties, non-refundable purchase taxes and directly attributable costs of bringing the asset to working condition for its intended use, such as site preparation, initial delivery, handling, installation and professional fees. Where items of property, plant and equipment have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified.

The cost of an item of property, plant and equipment acquired in exchange for a non-monetary asset or monetary assets or a combination of monetary and non-monetary assets is measured at its fair value. If the acquired item cannot be measured at its fair value, its cost is measured at the carrying amount of the asset given up.

Items of property, plant and equipment which are acquired for no cost or for a nominal cost are recognised at their fair values.

Subsequent expenditure is capitalised when the recognition and measurement criteria of an asset are met.

The cost or fair value of property, plant and equipment is depreciated using the straight line method over the period of the estimated useful lives of the assets. Depreciation on new acquisitions is charged to the Statement of Financial Performance in the financial year that economic benefits accrue to Council.

The annual depreciation rates are based on the following estimated asset lives:-

<u>DETAILS</u>	<u>YEARS</u>	<u>DETAILS</u>	<u>YEARS</u>
<b>Infrastructure</b>		<b>Other</b>	
Biological assets	15 - 30	Machinery and equipment	4 - 15
Cemeteries	15 - 20	Non-residential dwellings	15 - 30
Computer equipment	5	Roads	10 - 50
Dwellings	30	Waste disposal	50
Electricity infrastructure & equipment	5 - 50	Transport Assets	7 - 10
Furniture & office equipment	5 - 10	Water assets	50

The estimated useful lives and residual values of property, plant and equipment are periodically reviewed and adjusted where necessary.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount, it is written down immediately to its recoverable amount and an impairment loss is charged to the Statement of Financial Performance.

Mthonjaneni Municipality has taken advantage of the transitional provisions permitted by the Accounting Standards Board, in terms of Directive 4 issued in March 2009, with respect to the measurement of property plant and equipment as set out in paragraphs 73 to 83.

## 1.6 LEASES

Payments made under lease agreements are expensed and charged to the Statement of Financial Performance on a straight line basis over the period of the lease. These agreements do not transfer risk and rewards associated with ownership of an asset to the Municipality.

Mthonjaneni Municipality has taken advantage of the transitional provisions permitted by the Accounting Standards Board, in terms of Directive 4 issued in March 2009, with respect to the measurement of leases as set out in paragraphs 55 to 60.

## **1.7 INVENTORIES**

Inventories comprising consumable stores are valued at the lower of average cost, determined on the first in first out method, and net realisable value.

Redundant and slow-moving inventories are identified and written down from cost to net realisable value with regard to their estimated economic or realisable values. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

Mthonjaneni Municipality has taken advantage of the transitional provisions permitted by the Accounting Standards Board, in terms of Directive 4 issued in March 2009, with respect to the measurement of inventories as set out in paragraphs 45 to 52.

## **1.8 FINANCIAL INSTRUMENTS**

Financial instruments are initially measured at fair value. The subsequent measurement of financial instruments is dealt with below and in the absence of an approved GRAP Standard, is in accordance with IAS 39.

### **1.8.1 INVESTMENTS**

Financial instruments, which comprise fixed deposits and short-term deposits invested in registered commercial banks are stated in the annual financial statements at the lower of cost or fair value. No impairments are required as the cost values equate to their cash values.

### **1.8.2 CONSUMER AND OTHER RECEIVABLES**

Consumer and other receivables are categorised as financial assets: loans and receivables and are initially recognised at fair value and subsequently carried at amortised cost. Amortised cost refers to the initial carrying amount, plus interest, less repayments and impairments. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Impairments are determined by discounting expected future cash flows to their present value. Amounts that are receivable within 12 months from the reporting date are classified as current.

Bad debts are written off during the year in which they are identified.

An impairment or bad debt loss is recognised when it is probable that the Municipality will not be able to collect all amounts due (principal and interest) according to the contractual terms of the accounts receivable. The assessment of objective indicators of impairment for accounts receivable is carried out at each balance sheet date.

### **1.8.3 CASH AND CASH EQUIVALENTS**

Cash includes cash on hand and cash with banks. Cash equivalents are short-term highly liquid investments that are held with registered banking institutions with maturities of twelve months or less and are subject to an insignificant risk of change in value.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks and investments in financial instruments, net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets: loans and receivables.

Bank overdrafts are recorded at the current value of the utilisation of approved facilities from the Municipality's bankers. Finance charges on bank overdrafts are expensed as incurred. Amounts owing in respect of bank overdrafts are categorised as financial liabilities: other financial liabilities carried at amortised cost.

#### **1.8.4 FINANCIAL LIABILITIES: ACCOUNTS PAYABLE**

After initial recognition, financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Amortised cost is calculated by taking into account any discounts or premiums on settlement. Gains and losses are recognised in net income or loss when liabilities are impaired as well as through the amortisation process.

Accounts payable are stated in the annual financial statements at the amounts due to trade and other creditors for goods or services received. The liabilities are generally settled within a period of 30 days, accordingly impairments, if any, are considered to be immaterial.

### **1.9 REVENUE RECOGNITION**

#### **1.9.1 *Revenue from Exchange Transactions***

Service charges relating to electricity are based on consumption by consumers as is recorded on each consumer's meter. Meters are read each month and revenue is recognised in the period that invoices are raised. Provisional estimates of consumption are made in periods when meter readings have not been able to be made. The revenue from provisional estimates of consumption is recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. Revenue from the sale of electricity prepaid meter cards are recognised in the period in which cash is received.

Service charges relating to refuse removal are raised and recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements, the category of property usage and the number of refuse containers on each property regardless of whether or not containers are emptied during the month.

Interest is recognised on a time proportion basis.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered and the fee has been charged or licences and permits have been issued.

Revenue for agency services is recognised on a monthly basis once the revenue collected on behalf of agents has been quantified and once the terms of the agency agreement have been complied with.

Revenue from the sale of goods is recognised when the risk is passed to the consumer.

Revenue from public contributions is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment is brought into use. Where public contributions have been received but the municipality has not met the conditions, a liability is recognised.

#### **1.9.2 *Revenue from non-exchange transactions***

Revenue from assessment rates is recognised when the legal entitlement to this revenue arises. Penalty interest is raised on unpaid rates after the due date for payment and is recognised on a time proportion basis.

Revenue from the collection of spot fines and summonses is recognised when payment is received.

Donations are recognised when cash is received or when property, plant and equipment are brought into use.

Contributed property, plant and equipment is recognised when such items of property, plant and equipment are brought into use.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

#### **1.10 CONDITIONAL GRANTS AND RECEIPTS**

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the Municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. A liability is recognised to the extent that the criteria, conditions or obligations have not been met.

#### **1.11 PROVISIONS**

Provisions are recognised when the Municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate.

#### **1.12 RETIREMENT BENEFITS**

The Municipality operates various pension schemes. These schemes are funded through trustee administered funds. The Municipality has both defined benefit and defined contribution plans. A defined contribution plan is a pension plan under which the municipality pays fixed contributions into a separate entity. The Municipality has no legal or constructive obligations to pay further contributions.

Contributions are recognised as an expense in the Statement of Financial Performance in the year in which they become payable.

The liability recognised in the statement of financial position is in respect of defined benefit plan for post employment health care benefits. The fund is actuarially valued each year using the discounted cash flow method. Any deficits identified by the actuary are recovered from the municipality in the form of surcharges added to the contributions which are recognised as an expense in the Statement of Financial Performance in the year that they become payable.

#### **1.13 DEPOSITS**

Deposits received from consumers are based on a set tariff for conventional electricity meters. The deposit for domestic and business customers using conventional electricity meters may be increased based on consumption. In the event of a disconnection of service for non payment, the value of the deposit is reviewed and adjusted in terms of the Council's consumer deposits policy. No interest is paid on deposits held.

#### **1.14 UNAUTHORISED EXPENDITURE**

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

#### **1.15 IRREGULAR EXPENDITURE**

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearer's Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

#### **1.16 FRUITLESS AND WASTEFUL EXPENDITURE**

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

## 1.17 TRANSITIONAL PROVISIONS

Mthonjaneni Municipality has taken advantage of the transitional provisions permitted by the Accounting Standards Board, as set out in Directive 4 issued in March 2009 as follows:

- GRAP 1 Presentation of Financial Statements – paragraphs 7-8A
- GRAP 9 Revenue from Exchange Transactions – paragraphs 37-38
- GRAP 12 Inventories – paragraphs 45-52
- GRAP 13 Leases – paragraphs 55-60

**RETIREMENT BENEFITS (Continued)**

**2.3. Other retirement benefit obligations**

Certain members and Council contribute to the Natal Joint Superannuation, Retirement and Provident Funds (NJMPF). Employees of Mthonjaneni Municipality made up less than 1% of the total members of the NJMPF. Mthonjaneni's liability in these funds could not be determined owing mainly to the assets not being allocated to each employer and one set of financials being compiled for each fund and not for each employer

The latest interim valuation of the NJMP Retirement Fund (defined benefit) as at 31 March 2011 revealed that the fund was in a sound financial position

The latest interim valuation of the NJMP Provident Fund (defined contribution) as at 31 March 2011 revealed that the fund was in a sound financial position

The latest interim valuation of the NJMP Superannuation Fund (defined benefit) as at 31 March 2011 revealed that the fund was in a sound financial position

Council also contributes to the Municipal Councillors Pension Fund (defined contribution). Mthonjaneni's liability in this fund could not be determined owing mainly to the assets not being allocated to each employer and one set of financials being compiled for the fund and not for each employer

### **35. FINANCIAL INSTRUMENTS**

Exposure to interest rate, credit risk and liquidity risks arise in the normal course of the municipality's operations.

#### **Financial Risk Management**

The Municipality has exposure to the following risks from its use of financial instruments

- Liquidity risk
- Interest rate risk
- Credit risk

This note presents information about the Municipality's exposure to each of the above risks and the Municipality's objectives, policies and processes for measuring and managing risks

Further qualitative disclosures have been included in these financial statements.

The Accounting Officer has overall responsibility for the establishment and oversight of the Municipality's risk management framework. The Municipality's risk management policies are established to identify and analyse the risks faced by the Municipality, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes to market conditions and the Municipality's activities

The Municipality, through its training and management standards and procedures, aims to develop a disciplined and constructive environment in which all employees understand their roles and obligations

#### **Categories of Financial Instruments**

##### **Financial Assets :**

Investments and receivables		
Investments	30 040 000	30 040 000
Cash and cash equivalents	4 670 148	8 810 681
Consumer debtors	3 702 460	3 092 139
Other debtors	867 773	441 818

##### **Financial Liabilities**

Liabilities and creditors		
Creditors	2 121 966	3 441 464

All of the above financial instruments represent assets and liabilities that are to be realised within the next 6 months and as such the carrying amount equates to the fair value.

### **35. FINANCIAL INSTRUMENTS (Continued)**

#### **Liquidity Risk**

Liquidity risk is the risk that the municipality will encounter in raising funds to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities. Cash flow forecasts are prepared and monitored. The following are the contractual maturities of financial liabilities

	Carrying Amount	Contractual cash flows (12 months or less)
<b>30 June 2011</b>		
Creditors	2 121 966	2 121 966
<b>30 June 2010</b>		
Creditors	3 441 464	3 441 464

#### **Interest rate risk**

The municipality's policy is to manage interest rate risk so that fluctuations in variable rates do not have a material impact on the surplus for the year. The municipality currently does not have any long-term debt exposure.

The municipality's income and operating cash are substantially independent of changes in market rates. The municipality holds interest bearing assets with various financial institutions.

**Credit risk**

Credit risk consists mainly of cash deposits, cash equivalents and trade debtors. The municipality only deposits with major banks with high quality credit standing and limits exposure to any one counter-party. Trade receivables comprise a widespread customer base. The municipality has no control over the approval of new customers who acquire properties in the designated municipal area and consequently incur rates, electricity and refuse debts.

The municipality limits this risk exposure in the following ways, in addition to its normal credit control and debt management procedures :

- through the application of section 118(3) of the Municipal Systems Act (MSA), which permits the municipality to refuse connection of services whilst any amount remains outstanding from a previous debtor on the same property.
- a new owner is advised, prior to the issue of a revenue clearance certificate, that any debt remaining from the previous owner will be transferred to the new owner, if the previous owner does not settle the outstanding amount.
- through the consolidation of rates and service accounts, thereby disconnecting services for the non-payment of any of the individual debts, in terms of section 102 of the MSA

Consumer and other debtors are individually evaluated annually at balance sheet date for impairment or discounting.

The maximum credit and interest risk exposure in respect of the relevant financial instrument is as follows :

**Financial Instrument**

Consumer debtors	3 702 460	3 092 139
Other debtors	867 773	441 818
Cash and cash equivalents	4 670 148	8 810 681
